

FOR IMMEDIATE RELEASE

Richton Park, IL Launches Passport Mobile Pay at Metra Location

Village of Richton Park

RICHTON PARK, IL, December 11, 2015 - The Village of Richton Park is launching Passport's mobile pay solution at its Metra Station Lot location. Passport allows drivers to pay for parking from the convenience of their smartphone or tablet. With Passport, riders of the Metra will have the option of making credit card payments from their phone as opposed to using cash or credit card at the pay stations at all 610 Metra parking spaces. This launch partners the Village of Richton Park with Charlotte, NC-based Passport and Downers Grove, IL-based Total Parking Solutions.

"We're very excited to be launching in Richton Park," said Michael Rafferty, VP of Enterprise Implementations at Passport. "We look forward to making parking easier for Richton Park Metra riders with our user-friendly mobile pay solution."

During the launch, parking validations will be provided to first time users of the app. Users can get started by downloading the free PassportParking app for iOS or Android devices. Users can also register online at pprk.com.

Passport was selected to provide this mobile parking payment solution for Richton Park after successful launches in over 20 Chicago suburbs, including Evanston, Oak Lawn, Skokie, and Oak Park. Passport also developed ParkChicago, Chicago's mobile parking payment application.

Rick Reinbold, President of the Village of Richton Park remarked, "This is a wonderful thing for our residents and surrounding community. As a Village, we are excited to be making strides in becoming more technologically fit, making our lives just that much easier. Our Richton Park Metra station sees approximately 1,300 daily riders, and I am positive that this new advancement will be highly favored and applauded."

About Passport

Passport is the industry-leading mobile payments company specializing in integrated urban mobility solutions. The company provides feature rich software platforms that offer parking and transit agencies a more effective and efficient way to manage their operations and serve their customers. Passport's smart city solution includes multimodal options by creating an all app solution for public transit riders and parkers. Passport's mobile payment systems are deployed in over 1,000 locations in 46 states and provinces across the US and Canada, with clients such as Chicago, Toronto, and Boston.

Headquartered in Charlotte, NC, Passport is backed by a highly respected group of investors, including Grotech Ventures and Relevance Capital. For more information, please visit www.gopassport.com

About Total Parking Solutions

Established in 2005, Total Parking Solutions, Inc. and its principal partners have over 50 years of experience in the parking industry. The TPS corporate office and parts warehouse is conveniently located in Downers Grove, Illinois. Total Parking Solutions provides certified technicians who install and service Cale equipment throughout the Chicago area, Illinois, southern Wisconsin, northwest Indiana and the lower peninsula of Michigan. TPS now has more than 65 municipal, campus and private parking operators utilizing more than 500 pay stations manufactured by Cale to collect parking and transit fees. <http://totalparking.net/>
